Program

The Houston North Economic Outlook Symposium (HNEOS) aims to provide a new collaborative setting at Lone Star College - University Park to analyze the Greater North Houston's most important pro-active economic issues, create shared visions of the future and formulate innovative strategies to achieve these visions.

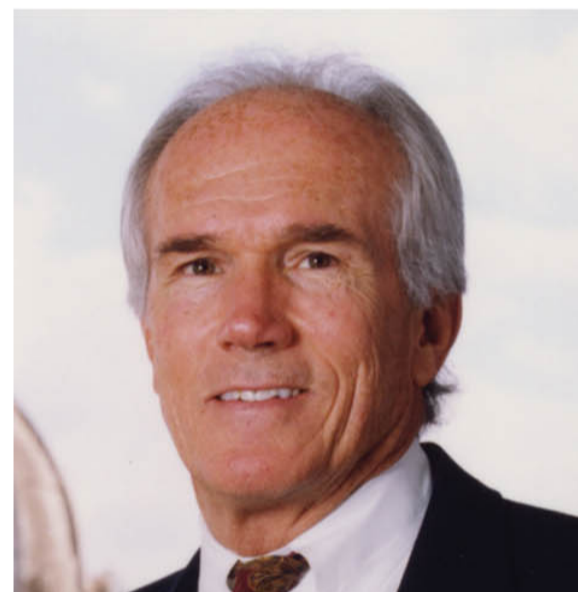

As one of the fastest growing communities in the United States with over 1.4 million people, and that's expected to top 1.7 million by 2015, the HNEOS thereby seeks to be a catalyst and to provide growth-related information to the citizens and business development leaders of the community.
