## NORTH HOUSTON ASSOCIATION RESOLUTION

In Support Of Final Environmental Impact Statement For  
SH 99 (Grand Parkway Segment F-1) From US 290 To SH 249

**WHEREAS**, the North Houston Association represents major employers, land owners, developers, professional firms and financial and commercial institutions and is dedicated to improving the quality of life in the north Houston area; and

**WHEREAS**, high-quality infrastructure, including roads and bridges, is an essential requirement for continued growth and economic development; and

**WHEREAS**, the North Houston Association passed a resolution on May 12, 2004 in support of the proposed SH 99 (Grand Parkway) and specifically Segments E, F1, F2 and G. The resolution stated the North Houston Association strongly supports the Grand Parkway Association's recommended alignment or a similar alignment.

**WHEREAS**, our focus on enhancing the quality of life for the region, including neighborhood integrity, natural vegetation, and wetlands areas, and assuring that the north Houston area is an attractive place for businesses to relocate or expand and for families to live is paramount in our mission while the population in our area continues to grow rapidly.

**NOW THEREFORE BE IT RESOLVED**, that the North Houston Association supports the preferred alternative alignment and associated environmental impacts contained in the Final Environmental Impact Statement (FEIS) for Segment F-1 from US 290 to SH 249. The project will provide improved access to the existing and future thoroughfare system, reduce area traffic congestion, improve safety, and improve area-wide mobility. This project will ultimately create a cost-effective, efficient transportation system essential for the quality of life that we support.

ADOPTED this 9<sup>th</sup> day of July, 2008.
