Adjourn

Chris Doherty

Chris is BGE's stormwater practice leader. He oversees the engineering planning, analysis and design for the stormwater infrastructure of a wide range of civil engineering projects, including major transportation design, public flood damage reduction and land development projects. His engineering experience has been focused on surface water hydrology and hydraulics, development of drainage master plans, riverine hydraulic analysis, impact and mitigation analyses for transportation and land development projects and design of urban stormwater drainage capital improvement projects. He co-authored the FHWA Urban Drainage Design Manual (HEC 22), which is the authoritative source on urban storm drainage system design and analysis.

Marcelo P. Moacyr

Marcelo has more than 30 years of experience in engineering and construction, and a drive for assisting clients in solving complex problems. He has a bachelor's degree in Civil Engineering from Universidade Gama Filho in Rio de Janeiro and a graduate certificate in Finance and Accounting from Rice University.

Throughout his career, Marcelo has developed a broad and diverse expertise in engineering, construction, project development, water and wastewater infrastructure, and environmental services with large scale public and private projects including single and multi-family housing, hotels, airports, water treatment and distribution, wastewater collection and treatment, biosolids management, and resource recovery.

He excels at building and sustaining relationships with clients and project stakeholders, including authorities having jurisdiction, permitting and regulatory agencies, and local communities. Marcelo also has experience with alternative project delivery methods, such as design-build, design-build-operate, and public-private partnerships. His global experience while at Odebrecht Construction, Odebrecht Environmental, and Flovac Americas provides an international perspective to project development and problem solving.

As a Director of Business Development and Associate at BGE, Inc., Marcelo brings the ability to collaborate effectively with shareholders, stakeholders, and clients. His unique problem-solving skills and solution-oriented approach to projects has proven successful throughout his 30+ year career working in all stages and levels of the business cycle from conception, through development, execution, and delivery.

Marcelo is a family man, married with three children, residing in Sugar Land, Texas. He is an active participant in civic and professional associations, including serving on the Board of Directors of Child Advocates of Fort Bend and Economic Alliance Houston Port Region.
